

**Job Title and Role (day job) :** Clinical lead Physiotherapist (Spinal)

**Place of work:** King's College Hospital, London

Suzie graduated from Liverpool University in 2001. She gained her MSc in Musculoskeletal Physiotherapy from University of Hertfordshire in 2009. She has worked in a variety of large London teaching hospitals as well as privately. She has worked in an advanced practitioner role since 2011. She works alongside the spinal neurosurgeons as well as in a MCATS setting. As well as developing her clinical skills she is attempting to get involved with research.

She joined the ESPPN committee in 2015.

Why I joined the committee:

I became interested in joining the ESP committee in order to increase my knowledge and involvement of the development of the profession. The study days are a fantastic resource and I hope to assist in running of these.
