

Job Title and Role : Advanced Physiotherapy Practitioner

I completed my undergraduate training at Coventry University in 1997, followed by my Masters in Manipulative Therapy at Curtin University of Technology in 2006. I have worked in various posts in Australia, the NHS, private sector and the MOD. I have worked as an Advanced Physiotherapy Practitioner for 9 years.

Out of work I love to spend time with my family and I am currently training for my 4th (and most likely final) marathon.

Place of work: Sandwell and West Birmingham Hospitals NHS Trust

Why I joined the committee

I have been inspired by various Advanced Physiotherapy Practitioners' over the years who eagerly shared knowledge, research and clinical expertise with me. After I attended a recent study day, I was keen to become involved in contributing to the clinical interest group network.
