

Job Title: Clinical Lead MSK & Advanced Physiotherapy Practitioner integrated Services, Herts valley.

Chandrasekhar Dekka is a Clinical Lead of MSK service and works as Advanced Physiotherapy practitioner in General MSK conditions and Rheumatology for Connect Health at Herts valley, Hertfordshire.

He Graduated (Bachelor of Physiotherapy degree) from Rajiv Gandhi University, Bangalore India in 2003. Subsequently after graduation he worked at several multispecialty hospitals for couple of years and gained experience in neurology, neurosurgery, general medicine and orthopaedics. To continue his passion and develop his career, he undertook MSc in Physiotherapy from Sheffield Hallam University in 2007. Following Post Graduation, he joined NHS and worked at various levels and continued to improve his clinical and non-clinical skills. He worked in Essex and London as band 6, band 7 and band 8 physiotherapists for 7 years. He worked and developed MSK physiotherapy services at Heathrow Detention Centre. In 2013 joined Connect Health at Camden as an Extended Scope Practitioner. As part of developing career, In 2016 he took new challenging role to lead Spinal community services in harrow and ran the successful pilot and results were presented as a poster presentation at Physiotherapy UK Birmingham 2017.

He joined APPN network for his passion to rive profession. He has keen interest in evidence-based practice implementation, developing clinical guidelines and teaching. He got a vision of standardising the ESP practice nationwide. If feasible he would like to develop fellowship in MSK physiotherapy and raise the profile of profession nationally to benefit the profession and service users and commissioners.

Apart from being a workaholic he is blessed with a gorgeous daughter and a wife. He enjoys spending quality time whilst doing adventure sports and long scenic drives. He adores travelling and has got profound interest in cooking and healthy eating.
