

Magnetic Resonance Imaging (MRI) in Axial Spondyloarthritis (AxSpA) for Physiotherapists

SAVE THE DATE

Pullman London St Pancras
100-110 Euston Road, London, NW1 2AJ
Friday 17th May 2019

We, at Novartis, are pleased to announce that we are holding an national education meeting focused on MRI reading in axSpA for Physiotherapists on Friday 17th May 2019.

This MRI workshop for physiotherapists aims to:

- To review practical aspects of MRI imaging in axSpA
- To provide training on recognition of inflammatory and chronic lesions in the spine
- To share expert insights and practical experience of reading MRIs

The content of this meeting has been put together by Dr. Pedro Machado, Consultant Rheumatologist in UCL, London, Dr. Alex Bennett, Consultant Rheumatologist in Ashted, Surrey and Liz Van Rossen, Rheumatology Practitioner Physiotherapist in Kent.

To express your interest in attending this educational meeting, please reply to this email and copy in: your MSL contact quoting "Novartis MRI in axSpA for Physiotherapists" in the subject header. Successful applicants will be sent a link to register online.

Please note spaces are limited and will be assigned on a first come first served basis.
