

What the CSP Practice & Development Research & Development Team does:

We champion the development and use of the evidence via:

Leading the direction of physiotherapy research - by identifying the profession's top research priorities

Members can access the top 65 research priorities (ranked in order) for physiotherapy and project report via the website:

<https://www.csp.org.uk/professional-clinical/research-and-evaluation/research-priorities>

Building the profession's research capacity and capability, through active engagement in [Council for AHP Research](#) (CAHPR) and the [CSP Charitable Trust](#) (CSPCT)

Members can get support, advice and funding through the following:

- CSP library, CAHPR, CSPCT
- [CSP website research pages](#), direct enquiries on research matters i.e. ethics, research governance and approvals etc

Progress the professions knowledge of current research findings, by delivering evidence in a format that is fit for purpose and readily available and useable

Members can access: Research Finding pages In Frontline, [Physio works briefings](#), [CAHPR top ten tips](#) and [hub resources](#)

Support the use of research in practice by identifying determinants, finding solutions and promoting enablers to getting research into practice.

Members can attend Physiotherapy UK, submit Focused symposia and abstracts to the conference <https://www.physiotherapyuk.org.uk/>

Members have access the CSP Library collection and services such as the library collection and the [Discoverytool](#), which collates all library resources into a single search interface, freely accessible 24/7. The Library Services also provide: Loans, photocopying, library space, and online help and tutorials

Develop and use the evidence to empower, transform and influence, by providing leadership for national service evaluation / improvement projects, responding to national consultations and providing localised specific support

Members can:

Use data from the hip sprint audit/ CSP standards to review practice:

<https://www.csp.org.uk/publications/hip-fracture-rehabilitation-physiotherapy-practice>

Use the Innovations database: <https://www.csp.org.uk/professional-clinical/improvement-and-innovation/innovations-database>

See the national consultations, that the CSP or CAHPR have responded to

<https://www.csp.org.uk/professional-clinical/professional-guidance/responding-consultations>

<https://cahpr.csp.org.uk/content/cahpr-policy-and-consultation-responses>

Become ambassadors / champions for example: [AHP Research Champions](#), CAHPR Hub Leader/Facilitator

Access resources from the CSP Clinical Evidence web pages

<https://www.csp.org.uk/professional-clinical/clinical-evidence> and Frontline features, for example Moving the evidence to transform services

<https://www.csp.org.uk/frontline/article/moving-forward-using-evidence-transform-services-0>

Contact us:

CSPCT – PRFAward@csp.org.uk.

CAHPR - <https://cahpr.csp.org.uk/CAHPR@csp.org.uk>

Library Service library@csp.org.uk

Research Priorities physiopriorities@csp.org.uk

Who we are:

Ruth ten Hove – Head of Development and Research

Fran Fitch – Research Adviser

Gabrielle Rankin – Research Adviser

Fran Hallam – Research into Practice Officer

Katie Prangle – Council for AHP Research Support Officer

Linda Griffiths – Information and Research Officer

Carl Banks – Library Assistant
