

Harry Kardamilas, APPN Executive committee member

Job Title: Consultant Physiotherapist – Clinical Director

Place of work: Practice Plus Group MSK Buckinghamshire

Harry graduated from Greece in 2005. He then moved to the UK and gained his MSc in Manipulative Physiotherapy from University of Coventry in 2009. He joined MACP and gained experience working in various musculoskeletal services. In 2010 he gained the role of the Advanced Practitioner. He enhanced his skills with training in US scanning and currently, he works in MSK CATS service in Buckinghamshire as the clinical director.

Harry has tried hard to develop the service he works for and he has won the ‘Allied Health Professional of the Year’ for the company in 2019. He has developed an APP pathway in his service and so far, he has trained successfully four Advanced Practice Physiotherapists. He remains involved with research through his work and recently he joined APPN as a co-opted member.

Joining the APPN Committee has been so far a wonderful experience. Harry is passionate for Advanced Practice and very keen to contribute and improve patient’s pathways and care.

When not working, Harry is kept busy by a family of two children and he has become a keen cyclist.
